

AD08000 Complete Diesel System Cleaner Professional

Document version: 17 Mar 2024

Description

This Complete Diesel System Cleaner Professional is a highly effective multifunctional cleaner. In addition to cleaning the entire fuel system, including the injectors, it also cleans the diesel particulate filter and the variable vanes of the turbo. This results in a reduction of emissions of harmful substances and soot particles. The Diesel System Cleaner Professional is therefore exceptionally suitable for adding to the fuel prior to periodic emission test/inspection.

Main benefits

- For all diesel and common rail systems
- Cleans injectors and improves combustion
- Cleans and regenerates the DPF
- Cleans turbo variable vanes
- · Reduces soot particles and smoke
- Reduces exhaust emissions

Application

Suitable for all diesel engines including common rail with or without turbocharger, with or without after-treatment systems, running low- or normal sulphur level diesel fuel.

- Drive at least 20 to 30 minutes with elevated rpm (>3000).
- Repeat similar cycles a few times while driving on the treated diesel to achieve the maximum result.

Pour the contents of the 500 ml bottle into the fuel tank, preferably before refueling

• The contents of one 500 ml bottle is suitable to treat 40 to 60 liters of diesel fuel.

Attention: Do not overdose!

with diesel.
